

~ ~ ~ GROUNDED IN RECORD · AVAILABLE FOR IMMEDIATE ENGAGEMENT

THE PRACTICE

I help organizations understand how institutions fail — and how to prove it. Federal insider, investigative analyst, litigation-tested: I bring all three vantage points to clients who need someone who has been inside the machine and came out with receipts.

THREE PRACTICE TRACKS

TRACK 01

Government Accountability & Institutional Forensics

I have mapped procurement networks, campaign finance flows, and intergovernmental accountability gaps at county and state level — and built the evidentiary records that surface them.

Services: Document trail analysis · Public records strategy · Institutional network mapping · Civil rights exposure assessment · MMRMA/public insurer liability identification

TRACK 02

Procedural Abuse Pattern Recognition

Vexatious filing and pretextual enforcement follow identifiable signatures — I have documented them in active Michigan litigation and published the analysis. That pattern recognition transfers directly to litigation risk pre-screening.

Services: Case file forensic review · Procedural abuse signature identification · Litigation risk pre-screening · Expert framing for legal reform advocacy

TRACK 03

Legal AI & Court Systems Domain Expertise

Most legal AI companies have engineers; few have someone who knows how courts actually work procedurally, politically, and informationally — and can also build LLM-powered workflows.

Services: Domain advisory · AI workflow development · Product red-teaming · Training data quality review · Court systems subject matter expertise

WHY THIS PROFILE IS UNUSUAL

- 12 years at Defense Logistics Agency — GS-13/14, data standards & interoperability
- Founder & Editor, Clutch Justice — active investigative accountability platform
- Doctoral candidate, Organizational Leadership (Capella University)
- MS, Criminal Justice — Purdue University Global
- Public Interest Technology Certificate — Carnegie Mellon Heinz College
- Pro se litigant who built a full civil rights evidentiary record against a county actor — and published it
- Author, Fit-Bench Act — original judicial capacity framework with draft statutory language

ENGAGEMENT MODELS

- Project-based (scoped deliverables)
- Retained advisory (monthly)
- Expert framing / report authorship
- Speaking & training
- Embedded consulting
